3. [backup iphone to mac](#)

You may be under the impression that all you need is Time Machine to ensure the integrity of your data.. However, a belt-and-braces approach is always a much safer option The more backups you have of your data, the less likely you are to be worried when a hard disk starts making a weird clicking noise.

You can run a backup regimen that enables you to save specific folders of content, such as your iPhoto library, mailbox, iTunes folder and Address Book.. There's no shortage of backup tools available already, but just like everything, some approaches suit a working style better than others. [Old Version Of Firefox For Mac](#)
